DETAILED ACTION

Claim Rejections - 35 USC § 112

I. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

A. Claims 9-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

B. Applicant has failed to positively claim any element outside of the "slip ring"; the dependent claims go on to further limit structure of elements not positively recited in the independent claims. The claim will be interpreted as pertaining to an angle slip ring seal.

Claim Rejections - 35 USC § 102

II. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

A. Claims 9-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Morley, US No. 3,241,844 ("Morley").

i. Morley, as best understood, discloses an angle shaped slip ring seal (see Fig. 1).
